“I am going to Florida Gulf Coast University and majoring in Media Communications. I can’t wait to move to a new environment with new people while studying something I am interested in. I hope to pursue a career,” Amanda Herrera (‘22) said.

“I am attending UCF, and am majoring in Emerging Media Graphic Design. I am most excited for the campus, and meeting new people from all over. I will miss newspaper because it is one of the reasons why I changed my major. However, I look forward to seeing where I go from here. I loved being co-editor and chief,” Erin Behrmann (‘22) said.

“I am going to Florida State University and majoring in exercise physiology. I am looking forward to meeting new people and getting more involved with the school.
